DIPLOMA IN VETERINARY PHARMACY AND LIVESTOCK EXTENSION PROGRAMME

(Instructions for Admission in 2023-24)

1. ABOUT THE UNIVERSITY

The first agricultural university of India, UP Agricultural University, came into being by an Act of legislation, UP Act XI-V of 1958. The Act was later amended under UP Universities Re-enactment and Amendment Act 1972 and the University was rechristened as Govind Ballabh Pant University of Agriculture and Technology keeping in view the contributions of Pt. Govind Ballabh Pant, the then Chief Minister of UP. The University was dedicated to the Nation by the first Prime Minister of India Pt Jawaharlal Nehru on 17 November 1960. The G.B. Pant University is a symbol of successful partnership between India and the United States. The establishment of this university brought about a revolution in agricultural education, research and extension. The credit for starting the functioning of the University without losing any time goes to the warm and resourceful personality of the first Vice-Chancellor, late Dr. Kenneth Anthony Parker Stevenson (1-12-58 to 2-1-64), who could keep people fruitfully engaged on the university farm, the labs and the classrooms.

2. ABOUT THE COLLEGE

Veterinary College, earlier known as College of Veterinary Medicine was established in 1960, and renamed as College of Veterinary & Animal Sciences in 2003. This college imparts undergraduate and postgraduate education for producing competent veterinarians; to conduct basic and applied research on various aspects of livestock health, production and livestock products technology; to carryout veterinary and animal husbandry extension activities through farm advisory services, health care services, organizing animal welfare camps, livestock shows etc. and to provide expert advice in veterinary and animal husbandry matters including diagnostic services and health coverage programs. It endeavors to transform the illustrious students into skilled veterinarians, carry out innovative research on compelling issues of local and national interest and transferring technologies from lab to the ultimate users.

3. INFRASTRUCTURE OF THE COLLEGE

The College for its academic activities has fifteen departments and three independent units including Teaching Veterinary Clinical Complex (TVCC), Instructional Livestock Farm Complex (ILFC), Instructional Dairy Farm Complex (IDFC) and Instructional Poultry Farm Complex (IPFC). All the departments are manned by knowledgeable and efficient faculty members. The lecture theatres and laboratories are well furnished with state-of-the-art physical facilities and modern sophisticated equipments.

4. DIPLOMA IN VETERINARY PHARMACY AND LIVESTOCK EXTENSION

University takes pride in having started the need-based diploma courses in Veterinary Pharmacy and Livestock Extension in the state. The diploma programme is being started in College of Veterinary and Animal Science under self-finance scheme. Realizing the importance of livestock resources, veterinary education has been strengthened over the years; however, in view of the limited availability of qualified Veterinary graduates, it is not possible for government to make their services available in each and every village. Further veterinary doctors too require well-

trained supportive staff to cater the technical pharmacy services and livestock extension more efficiently. Trained Veterinary Pharmacists and Livestock Extension workers are essential for efficient veterinary and livestock extension services at village level. They also assist in public health services and control of zoonoses, endemics and epidemics under the guidance of expert veterinary professionals.

Relatively large quantities of medicaments are required in treating animals. For these reasons it would be possible only when veterinary practitioner institutes adequate treatment in animals of limited value using relatively inexpensive pharmaceutical preparations compounded by him or veterinary pharmacists. Trained Veterinary Pharmacists and Livestock Extension workers are required for delivering services of pharmacy for compounding and dispensing medicines as per prescriptions of doctors and maintenance of hospital records in government veterinary hospitals and polyclinics. In addition, services of veterinary pharmacists Livestock Extension workers are also required in dairy and poultry farms. Presently, no such Diploma in Veterinary Pharmacy and Livestock Extension is awarded by any government or non-government institution in Uttarakhand and, therefore, persons from medical or paramedical streams are appointed in veterinary hospitals. It would be technically desirable if specific human resource is trained specifically in veterinary pharmacy & livestock extension. They would be useful in dairies and poultry sector besides serving in Government hospitals. Thus, in addition to job of veterinary pharmacy & livestock extension, they will have ample opportunities in livestock and poultry sectors at state and national level. In lack of any diploma programme of Veterinary Pharmacy and Livestock Extension, it will be of great relevance to create human resource by commencing diploma programme in Veterinary Pharmacy & Livestock Extension in the University which will provide trained Veterinary Pharmacists and Livestock Extension workers for public and private livestock and poultry sectors in Uttarakhand and other states.

In view of the requirements of trained human resource in the state of Uttarakhand, G.B. Pant University is starting the *Two year Diploma in Veterinary Pharmacy and Livestock Extension (4 semesters plus 60 days internship)* in the College of Veterinary and Animal Sciences. The details are as follows;

Name of the programme	Duration	Number of Seat	Medium of Instruction	Reservations
Diploma in Veterinary Pharmacy and Livestock Extension	Two Academic years (4 semesters) and 60 days of internship	30 (15 seats for Uttarakhand & 15 seats for Other States)	Bilingual i.e. English and Hindi.
